# ARCHITECTURAL DETAILS

# LOCATION OVERVIEW

# CENTRAL+ CONVENIENT

11259 Washington Blvd is located in the Culver City/West Los Angeles submarket, one of the most dynamic and resilient office and creative corridors in Southern California. Its main artery, Washington Boulevard, serves as a primary east-west connector linking Downtown Culver City, the 405 Freeway, Marina Del Rey, and the broader Westside employment base.

The surrounding area is characterized by a blend of creative office campuses, boutique production facilities, mixed-use developments, and high-density residential projects.

11259  
WASHINGTON  
BOULEVARD  
*Culver City*

Nearby Playa Vista and Culver City continue to attract technology firms, content creators, advertising agencies, and design-focused companies, supporting long-term demand for modern, well-located office product.

Immediate access to the 405 Freeway provides efficient north-south regional connectivity, while proximity to Los Angeles International Airport (LAX) enhances accessibility for executive and client travel. The Westside's strong demographics, high household incomes within a 3- and 5-mile radius, and limited new ground-up creative office supply create a high-barrier-to-entry investment environment.

*As companies continue to prioritize experiential workspace, outdoor amenities, and boutique headquarters environments, newly constructed, smaller-scale creative assets such as 11259 Washington Blvd are positioned to outperform commodity office product.*
